

Coding Challenge 1- Functions Solution

Solution-

```
function square(x, print)
{
    print("Area of square is: ", x*x);
}

function rectangle(x, y, print)
{
    print("Area of rectangle is: ", x*y);
}

function circle(r, print)
{
    print("Area of circle is: ", 3.14*r*r);
}

function print(shape, val)
{
    console.log(shape, val);
}

square(4, print);
rectangle(2, 5, print);
circle(3, print);
```
