

Lordicon is a platform that offers a wide range of animated icons and illustrations for web designers, developers, and content creators. These animated icons are often used to enhance user experience on websites, apps, presentations, and other digital projects. Lordicon provides a library of customizable animated icons in various categories, allowing users to easily integrate dynamic and engaging visuals into their designs.

- To access icons from this website, visit <https://lordicon.com/icons>.
- Select the category of icons you wish to browse. We have used the system category in the project. You can directly navigate to <https://lordicon.com/icons/system/regular> for that.
- Feel free to choose any of the available free icons that suit your needs.
- On the right-hand side, below the chosen icon, you'll find four options. Opt for the first one, labelled HTML.

- Next, you'll encounter the following instructions:

Embed on WEB

ANIMATION TRIGGER

Hover

SIZE

—

250

px

+

```
<script src="https://cdn.lordicon.com/lordicon.js"></script>
<lord-icon
  src="https://cdn.lordicon.com/gjlgchju.json"
  trigger="hover"
  style="width:250px;height:250px">
</lord-icon>
```

 gjlgchju

- Simply insert the script tag in the head section of your HTML. This will enable the animations.
- Then, place the HTML tag in the body of your HTML document wherever you intend to use the icon.
