

## Coding Challenge 6- Branching

Solution-

```
var price=30000,accountBalance=25000;
```

```
if(price<=accountBalance)
```

```
  console.log("I can buy the phone");
```

```
else
```

```
  console.log("I can't buy the phone");
```

```
var creditLimit=3000;
```

```
if(price<=creditLimit+accountBalance)
```

```
  console.log("I can buy the phone now");
```

```
else
```

```
{
```

```
  var leftAmount=price-accountBalance-creditLimit;
```

```
  console.log("The money required is: ",leftAmount);
```

```
}
```
