1. Implement a function which will print all the numbers between 1 and 20 using Javascript

   Solution:

```javascript
function printNumbers(){
  for(var i = 1; i<=20;i++){
    console.log(i +" ");
  }
}

printNumbers()
```

2. Implement a function to check if the year if a leap year or not using javascript

   Solution:

```javascript
function checkLeapYear(year){
  if(year % 400 == 0){
    return true;
  }
  else if(year % 100 == 0){
    return false;
  }
  else if(year % 4 == 0){
    return true;
  }
  else{
    return false;
  }
}
```
